

Monitoring & Control Accessories: Woods WiOn WFSW-O-1051 – Wi-Fi Controlled Smart Box, Outdoor

Description:

- Outdoor-rated Wi-Fi enabled smart box.
- Designed for commercial, industrial and residential applications.
- The smart box provides multiple voltage control and a lockable metal enclosure.

Application:

- Save money using a timer on your water heater, program your business sign to turn on and off at scheduled times, turn on electrical devices at a vacation home before you arrive, or set fountain lights to turn on at sunset.
- Ideal for HVAC units, pumps, compressors, agricultural facilities, or other heavy duty applications.
