

## Monitoring & Control Accessories: Woods WiOn WFSW-I-1048 – Wi-Fi Controlled Surge Protector, Indoor

### Description:

- A 6-outlet indoor Wi-Fi enabled surge protector.
- Four outlets are Wi-Fi controlled in tandem, and two outlets are controlled via the power bar switch.

### Application:

- Save energy by shutting down computer peripherals when not in use, schedule lamps and a radio to turn on and keep your pet company while you're away, monitor if your kids have the gaming console or TV on when they should be doing homework, or program holiday lights and decorations to give a festive look to your home.
- Simple control, all at your fingertips.
- Download the user-friendly app, connect your device to your smartphone using your existing Wi-Fi network and begin controlling your device from anywhere – at home or on the go - using Wi-Fi network or mobile internet (3G/4G/LTE).
- There are no set-up fees, no hub required and no monthly charges.
